Hello! My name is Ramin and my cousin lives in London with his parents. This summer I spent my summer holidays in Scotland together with them. We went to Loch Ness and visited an old castle in Edinburgh. I hoped to see the monster Nessie, but I didn't. My uncle likes walking so we walked through the Highlands. The weather was sunny and sometimes rainy.

We are Thomas and Paul from Berlin, the capital of Germany.
We spent our holidays on Granny's farm in the country.
The weather was great this summer. We often helped Granny with the animals because there was a lot of work. For breakfast we had fresh milk. Sometimes we drove the tractor. That was a lot of fun! We had a great time with Grandma!

My name is Lily. I live in New York, the USA. My mum and I live in a small house. Our holidays we spent in Canada. We stayed in a small hotel near the Niagara Falls. It was amazing! We wore raincoats and a hat to see the falls. I met a boy called Andreas from Germany. He was really nice and he could speak English! We spent a lot of time together.

Dear friends! My name is
David and I live in Manchester,
England. This year my parents
and I spent the summer in Spain.
We took the plane to Spain and
it was my first flight. We stayed
in a big hotel on the beach. The
weather was hot. I swam in the
sea, built sandcastles
and my parents sunbathed.
Spain was fantastic!

A) Every afternoon children went to play in the Giant's garden. It was a large lovely garden, with soft green grass, beautiful flowers and trees. The birds sat in the trees and sang so sweetly that children stopped their games and listened to them. «How happy we are here!» children cried.

B) One day the Giant came home and saw the children in the garden. He visited his friend and stayed with him for seven years. After the seven years were

over he decided to return back. When he saw the children playing in the garden he cried in an angry voice «What are you doing in my garden?» Children were afraid of him and ran away.

C) «My own garden is my own garden. I don't allow anybody to play in it.»

D) Then the spring came and there were flowers and birds everywhere. Only in the garden of the selfish Giant it was still winter. «I can't understand why the spring is so late», said the selfish Giant. But the spring never came, and the summer never came. The autumn gave fruit to every garden, but it was always winter in the Giant's garden. ...

Most children like to celebrate birthday parties and Christmas parties.

September, 9th is Teddy Bear Day. Teddy Bear Day is not an official holiday. In 1883 a German woman invented Teddy Bear [tedi beə] as a toy animal. Her name was Margarete Steiff. She had polio* and used a wheel chair. She had an innovative mind. She sewed clothes in animals shape. Her little animals were popular and she made more toys. One of them was a bear. It was her hobby to make animal toys. These toys were elephants, pigs, dogs and cats.

Halloween is on the 31st of October. Children dress in the costumes of witches, ghosts, skeletons. Children go in costumes from house to house, asking for treats such as candy or sometimes money, apples with the question: «Trick or treat?» and give them to poor people. They carve pumpkins and put candles into them, light bonfires, tell scary stories each other and watch horror films

At a **Balloon party** children make different colourful decorations. Children like **to blow up** a lot of balloons, decorate them and put them in the corner, on the ceiling and **at the doorway**. There are a lot of interesting games in this party. It is cool!

A **Football birthday party** for boys is popular in Great Britain. Boys love football. If a boy has a favourite football team the party decorations are of team's colours: plates, cups, napkins, flags, balloons.

In warm weather guests are outside and play some **rounds of football.** If the party is indoors there are a lot of indoor games.

Friedrich Froebel

In English language there are many borrowed words from other languages. For example, "kindergarten" is a German word. It means "children's garden".

The founder of a kindergarten was Friedrich Froebel who lived in Germany many years ago. When he was a small boy he liked to play in the garden. He was happy there.

Soon it was time to go to school. He had a lot of books and he liked to read them. But books didn't have any pictures. Friedrich grew up. He remembered his school and garden.

"School should be a happy place. It should be like a garden", said he.

"Children should play. They should do things with their hands. They should have books with pretty pictures".

Walt Disney was born in Chicago on December 5th, 1901. When he grew up, he began to draw pictures and create cartoons.

One day he had an idea to make a mouse the main character of the cartoons. He called him Mickey. Mickey became very popular. Then come other characters: Donald Duck, Pluto and many more. Disney's main characters are always clever.

He created a special animal world full of optimism and success. His stories always end happily.

One day Disney had an idea to create a special place – a land for children and their parents to have fun together. So he built Disneyland in California. It is a place for children of all ages. Millions of people come there every year to meet all the Disney characters.

The village butcher found some salty beef. «The soup tastes wonderful, but it needs some potatoes and carrots». More and more villagers came and added other ingredients: some potatoes, onions, carrots, mushrooms, and so on. MEALS IN BRITAIN

British people have three meals a day: breakfast, lunch and dinner. Breakfast time is between 7 a.m. and 9 a.m. Traditional English breakfast is bacon and eggs, sausages, tomatoes, orange juice, toast and a cup of tea. People have lunch between 12 a.m. and 2 p.m. Schoolchildren usually have lunch in the canteen. Some children take a «packed lunch» from home. This is often a sandwich, some crisps, some fruit and a drink. In the evening families get together and have dinner. It is usually between 6 p.m. and 8 p.m. Traditional English dinner is meat and vegetables. The most used vegetables are often potatoes. Many people also like pasta and rice. Tea is a favourite drink of British people and they drink it with milk. They can have tea with sandwiches, cakes or biscuits. They usually invite neighbours to the tea or coffee table in the evening. They share their food with poor people on holidays.

Think about your bathroom. There is hot water in your bath. Steam goes up from the hot water. The steam makes small clouds in the bathroom. These warm clouds come to the cold walls and windows, and then we **see/sea** small drops of water on the walls and windows.

The water in the oceans is warm when the son/sun shines on it. Some water goes up into the sky and makes clouds. The wind carries the clouds. Then the clouds meet/meat cold air in the sky, and we see drops of water. The drops of water are rain.

The rain falls and runs into rivers. Rivers run into oceans. And the water from oceans makes clouds and more *rain/rein*. Water moves from oceans to clouds. Then it becomes rain and drops into rivers and oceans.

Where do clouds come from? How does the water get into the sky?

Some people cut trees and build new houses, factories to make money. Factories send a lot of smoke into air. The markets throw litters in the streets in plastic bags. But they must put paper, cans, bottles and glasses into special containers. All litters make carbon gas and pollute air. It makes people sick. Many villagers cut trees in the forests and make fireplaces for heating homes. That is why many animals can't find food and leave their homes. Now they are disappearing.

We should find solutions of all these problems.

THE SOLAR SYSTEM FAMILY

We call the planets and the Sun the Solar System. Our Solar System is made up of nine planets. They are: Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune and Pluto. All of the planets are around the Sun. The Sun isn't a planet. It is a star.

The first planet, next to the Sun, is Mercury. Venus is the second planet from the Sun and it twinkles as « a morning star». The Earth is the third planet.

We live on the planet Earth. Its age is 4.5 billion years. It is between Venus and Mars. Jupiter is the biggest planet. Saturn, Neptune and Uranus are all bigger than the Earth, but Venus, Mars (the red planet), Mercury and Pluto are smaller planets than the Earth. On Earth there is air and water for the people, animals and plants.

Saturn is special for its beautiful rings. The other planets in our Solar System don't have air and water. But Neptune has strong winds. Pluto is one of the small planets. At night you can see a lot of stars in the sky. Stars are large balls in outer space that give light. It takes a long time for light from stars to come to Earth.

On June 16, 1963 Valentine Tereshkova was the first woman cosmonaut in the world. She orbited the Earth 48 times under three days. She went on a Vostok-6 and spent three days above the Earth.
